

The Federal Communications Commission
445 12th Street, SW
Washington, DC 20554

Dear The Federal Communications Commission,

I do not want to pay more for my telephone service! I urge you to reject a flat fee proposal that would change how contributions are made to the Universal Service Fund. I am concerned that this proposal could make my current service unaffordable.

Under the flat fee proposal you are considering, people who make few long distance calls would pay the same as people or businesses that make many calls. In other words, low-volume and primarily residential customers would bear the same universal service fund burden as a high-volume residential or business customers. This is unfair!

I use my wireless phone for safety, security and convenience. I don't want to lose these benefits so that big businesses can pay less than their fair share. I urge you to reject the proposal to move the USF collection system to a flat-fee. We all ready pay to much to have a prepaid phone. The prices keep raising and we are unable to seek the needs of having a phone for emergency when the prices keep rising. Please write me back I am concern about the difficulties my fellow people must face. This is the perspective of a 15 year old who is concerned about her phone rates. By the way my name is Shanderieka D. Clark. My address is 317 Gevena circle, Quincy Florida 32351. You can email me at DelClark08@aol.com or Shanclark08@blackplanet.com

Keep the USF Fair!

Sincerely,

Shanderieka Clark
